### ANNOUNCEMENTS.

We are authorized to announce D. S. GODSEY as a candidate for representademocratic party.

We are authorized to announce Dr. F. M. THOMAS an independent republican candidate to represent the legislative dis-trict composed of Montgomery, Menifee, Powell and Wolfe counties.

BUILD HOUSES.

This town can never be built up to any great extent until her moneyed-men are induced to display their ducats in building homes for people who wish to locate here. The days of mug-wumps and old fogyism have past. To keep pace with the times we live in is the duty of our citizens of to-day. People are not likely STRICKLIN'S connubial affairs." He is to come into a town where there are no guilty of travesty on truth when he says tant rents for them. What people want are small, neat three and four-room cottages, which will pay the owner about \$5 per month or the rate of 10 per cent. on the investment. No fears need be entertained that they will not be occupied. Every one can be rented before it is finished. This does not apply to Hazel Green alone, but to every town in the mountains as well. The first step toward making a town is to have houses, and if like the cry of a howling meb. He says the citizens of our town wish to enlarge their domain and induce an influx of first-class people, they must have houses for them-good, substantial, neat cottages. Here in Hazel Green we need several business enterprises, which, if houses were to be had, would be inaugurated. Among other things we need a ill of the dead"-to invite a monument bank, and there is no point in the mountains where one could be established to better advantage than right here, but we venture that it will be hard to find any man or set of men with the temerity to open one. Why? Because our own citizens do not display that enterprise they should—public spirited enterprise for the benefit of the people at large. Hazel Green is the most central point in the mountains, and a bank here would have all the collections it could manage, and loan all the money it could command at fair rates. In short, a bank with a capital of \$75,000 could pay a semi-annual to our well-being, will soon be estab-

### A MONUMENT SUGGESTED.

Floyd Williams, charged with the murder of Pate Stricklin, in Wolfe county, was tried at the Wolfe circuit court last week and sentenced to be hung on the 3d day of July. We do not know any of people reported a light frost. It is thought, the circumstances of the murder, and it however, no damage was done to vegetation. is always presumed that a jury knows its business; but we do know something of Stricklin's history, and if Williams is hung Uncle Sam ought to erect a monument over his grave, for Pate was a pensioner. He (Stricklin) served some time as a rebel guerrilla, and after the war was over he went to a log-rolling, where he received some physical injury for which he drew a large pension from the government. It is not our pleasure to speak ill of the dead, nor do we justify murder on any pretext, but considering tive from the district composed of the counties of Montgomery, Menifee, Pownubial affairs (a fact known to hundreds) ell and Wolfe, subject to action of the coupled with the general depravity and degredation of his nature, the county lost little in his death .- Sentinel-Demo-

Wengeance is mine, and I will repay it

Comment on the above is scarcely necessary, and we only notice it because some of our best citizens have called our attention to it by branding it as unworthy a place in any journal claiming to espouse the cause of law and order. The writer claims that he knows nothing of the evidence, yet implies in the next sentence that he did know a right smart about the "mercenary manipulations of uses, nor do they wish to pay exhorbi- STRICKLIN received his pension for a physical injury received at a log-rolling, for Dr. F. M. THOMAS says he was the examining surgeon and that he had a vice of the United States. On the doctor's certificate the pension was procured. When he asks for a monument to be erected over the murderer's grave, displays a spirit of vengeance which STRICKLIN was a rebel guerrilla. That infer that his being in the confederate service was a stain upon his character? We hope not. To vilify the name of the departed in one breath, and with the next say "It is not our pleasure to speak over the grave of the murderer, and then say "nor do we justify murder on any pretext," are strange consistencies.

"He that dies pays all debts."

How did the reporter of the Courier-Journal discover that Dr.STRATHARD was "quite familiar with Biblical history?" Did he ever read that Book, that he is capable of judging whether the quotations were from there or elsewhere.
